On April 24th the 99% Take Over Wells Fargo Annual Shareholder Meeting

Wells Fargo profits at the cost of our communities:

- **America's Biggest Tax Dodger** – Hoarding billions of tax dollars that should be paying for public services and putting America back to work
- **Leads in Foreclosure** – Continuing to foreclose on families in an economy it helped to ruin
- **Predatory Lender** – Targeting those who can least afford it with exploitive mortgages and payday lending, especially low-income communities of color
- **Corrupting our Democracy** – Protecting its profits by quadrupling spending on lobbying since the financial crisis began
- **Prison Profiteer** – Profiting from increased incarceration by investing heavily in for-profit prison corporations and anti-immigrant legislation

**Tuesday, April 24th
11am**
