

Statement on Kyle Rittenhouse Verdict

November 19, 2021 – As an organization committed to advancing social and economic justice, the San Francisco Labor Council is disappointed in the verdict in the Rittenhouse case. It is yet another example of the deep and systemic racism that runs through our “justice” system and sends a dangerous message about vigilantism. This denial of justice will only make us redouble our efforts to root out systemic racism in all our institutions. Our fight against inequality, racism, and violence will continue to be prioritized and we will not be deterred. #SFLabor #RittenhouseVerdict
